Circle of Care is the only East Bay organization focused on the emotional needs of children aged 3–17 facing the imminent or recent death of a parent, sibling or other family member.

Our volunteers receive intensive initial training, with follow up skill-builders throughout the year. Once the training is completed, they will lead art, play and social engagement opportunities with children and adults living with this unique family experience.

Twice monthly, we provide concurrent support groups for preschoolers, school age, teens and adult caregivers in our “Living with Sudden Loss” and “Living with Serious Illness” groups

Won't you be a part of their lives through this difficult time by providing them emotional safety, through creativity, kindness, openness and fun?
